# ABOUT THE GASKET MATERIALS

## What are the CTP's Gaskets made out of?

Gaskets are produced from solvent free materials, environmentally friendly, asbestos free. Materials are treated with an anti-stick coating on both sides to better protect the gasket and the machine itself.

# ABOUT THE ABC GASKET PROGRAM

## What is CTP's ABC Gasket Program?

This is a program designed to consolidate gasket kits and make it easier for the parts person to order and for the rebuilders to quickly identify and organize the seals and gaskets. At the same time they can be assured that everything they need is included for each particular rebuild.

Kits are packaged into sub kits (front set, rear set, lower set, etc.) inside the gasket kit box for easy identification.

## Why buy CTP's ABC Gasket Kits?

Everyone likes to keep things simple and organized. We can help you do that while offering you the reliability and premium quality that comes with every CTP product. The ABC Gasket Kit Program offers you the following:

- \* 1 box instead of 10 boxes.
- \* Kits are divided and labeled into sub-kits inside the gasket kit box for easy identification.
- \* Less shipping costs. (1 box compared to 10 boxes)
- \* Less warehouse space. (1 box compared to 10 boxes)
- \* Faster inventory turnover.
- \* More machine coverage with lower investment in inventory. (Each special kit covers a wide range of serial numbers)
- \* Simplified part number system. A = , B = , C =
- \* All necessary seals and gaskets are included in a kit for a particular rebuild (inframe, out of frame or a head set) You won't have to worry that anything is missing.

## How you choose from the different sets of kits:

**A = Out of Frame Overhaul Gasket Set**

**B = Inframe Overhaul Gasket Set**

**C = Multiple Cylinder Head Replacement Set**

Other options will be identified with the letters D or E.

The part number will be made up of: CTP + engine number + consecutive number + A,B,C (D or E suffix if available).
